Description	
<i>Provide a short description of the event and its activities.</i>	
<p>The participating partners continued to work on the preparation of the joint project plan and got to know the traditional International Nógrád Folklore Festival, which has been one of the largest and most famous events in our region since 1955.</p> <p>One part of the guests took part in the professional programs, while the other half were performers at</p>	

the festival.

As part of the three-day meeting, in addition to the professional workshops, the members of the delegations also got to know the sights of our city.

At the festival, the folklore ensembles of the partners presented themselves on stage: from Poland, the Czech Republic, and Hungary. In addition to the visual pleasure, they were able to get to know local handicrafts in the context of the regional brand Produkt Novohrad, they could taste the region's traditional cuisine made from local ingredients and local "liquid gold" from craft breweries and wine cellars.

The local organizers of the WE4EU 2022 joint project believe that all the prepared activities made a positive impression on the participants. In a year, they want to welcome foreign guests with the same pleasure, not only as partners, but also as friends.
