Description			
<i>Provide a short description of the event and its activities.</i>			
<p>On July 7-9 In 2023, the city of Mělník in the Czech Republic hosted delegates from partner cities: Gyöngyös from Hungary, Târgu Secuiesc from Romania, Lučenec from Slovakia and Łodygowice from Poland as part of the ongoing WE4EU project in the CERV program.</p> <p>The event was started on Thursday afternoon at Hotel Liblice, which is the conference center of the Academy of Sciences of the Czech Republic, by the deputy mayor of Mělník, Petr Kowanda and the</p>			

councilor, JUDr. Jindřich Špergl. Then the participants moved to the conference hall for a professional workshop on the topic: the use of rainwater in urban development.

In the beginning, the main points of the program were presented, and then the individual groups from the partner cities were invited to first elaborate their solutions to the individual ways of using rainwater in urban development, and then introduce them to the other participants in the form of a short presentation.

The following day, foreign delegations had the opportunity to learn about concrete solutions for the use of rainwater right in the center of the capital of the Czech Republic – Prague.

In the second part of the program, the delegation participated in a traditional festival of food and theater - the Sea near Mělník.

The program ended on Sunday 9 July 2023.

Target group: the population of Mělník, approximately 20,000 inhabitants.

Message: details about the winning project and the positive aspects of the project on long-term twinning with the municipality of Mělník and its potential for future development.

Informing the inhabitants of the city of Mělník and its surroundings about the WE4EU project and about the cooperation that arose on the basis of this project, as well as about specific topics that are discussed within the project with the expectation of long-term cooperation.
