Description			
<i>Provide a short description of the event and its activities.</i>			
<p>This is the last event of the project, the closing partner meeting.</p> <p>The preparation of the meeting partly started at the previous meeting in Slovenia. Then, in the framework of an online discussion, we clarified the final program of the event and the data of the participating groups.</p>			

The event took place within the framework of the Mátra Harvest Days and White Wine Festival. During its three days, numerous concerts, craft fairs, family programs and gastronomic demonstrations awaited those interested.

We discussed the results of this project. Then we held together a press conference. The mayors of the participating towns spoke about what results they got from the project. In the framework of the workshop the cities decided they agreed on future joint projects.

After the press conference the official program ended with tree planting: together with the heads of the delegations, we planted a symbolic tree on behalf of each municipality to commemorate the cooperation and the project.

The project has been a success, with new contacts and friendships formed during the period of the project. The participating partners have jointly submitted new EU applications. The people of the cities got to know each other and EU values were reinforced. The participating towns intend to continue to submit joint applications and to continue their cooperation.

The large audience of the Harvest Festival got to know the participating towns. The programme received a lot of media coverage. Informing citizens about the close of the joint project. Presentation of foreign partners. Description of goals and tasks. The participating cities presented their experiences of the project in a presentation. Participants noted that the objectives set for the project had been jointly achieved. In total, 10 events were organised in the 6 participating countries.
