From country 5 Hungary	13		
From country 6 Czech R.	10		
Total number of participants:	63	From total number of countries:	6
Description			
<i>Provide a short description of the event and its activities.</i>			
<p>Preparation phase: Project planning to involve 6 countries. This was already a big step for our municipalities. Even if the project was not successful, we laid the foundation for cooperation. A successful project made it possible to get to know each other, gain information and experiences. Not only thanks to regular e-mail, telephone and online communication at previous and future events, but also thanks to very important personal communication and meetings during the events in each of the countries. A musical group from the Hungarian city Gyöngyös also performed at the event. In addition</p>			

to the partners, young cyclists from this city also visited the city of Lučenec on these days. Thanks to the project, visitors to the event could also take a train and see the land from a different perspective. The meeting of generations, many nationalities and cultures had a positive effect on the event itself, establishing contacts and supporting the perception of the EU community.

The event was held as part of the Lučenské hodovanie - Lučenec City Days 2023. During the three days, numerous concerts, craft fairs, family programs and gastronomic demonstrations awaited the visitors. The program of the delegation was filled in the working part with a workshop on implemented projects, a lecture on the restoration of the Synagogue and a demonstration of good practice.

We discussed the results of this project and other city projects presented during the visit in 2022 in the field of tourism, infrastructure expansion and others. The goal was to present how we have progressed since 2022 within the cities and our cooperation.
