Description			
<i>Provide a short description of the event and its activities.</i>			

**Host:** Romania, Targu Secuiesc (Kézdivásárhely)

**Date and time:** 07/05/2025

The aim of the event is to provide an opportunity for local civil society organisations to present their activities and initiatives and to encourage an open dialogue on European values, societal challenges and the role of civil society in European community building.

Representatives of civil society organisations, youth and community groups and all interested parties are welcome to attend the conference.

The conference programme:

Morning session: 09:00 - 11:30

Break

Afternoon session: 13:00 - 15:00

We look forward to the active involvement of civil society organisations from the partner cities to contribute to a valuable exchange of ideas."

As before, the morning started with a welcome to Târgu Secuiesc, followed by the consortium leader who drew lessons from the previous two presentations and wished all participants success.

The first presenting organisation was the „**Zöld Nap Egyesület**” (Green Day Association)

Zöld Nap is a professional environmental science organisation founded in 2009. Its members are ecologists, economists, artists, teachers, engineers, sociologists. It is politically and religiously independent

Its mission is to promote environmental awareness; to foster civil society engagement; to promote sustainable education and healthy lifestyles and to build a more active, aware and responsible society. They organised the Green Spring Days, during which 600 participants planted 1153 tree saplings. A charity event was organised, the proceeds of which were used to build a playground. They are involved in awareness-raising campaigns, promoting sustainable consumption through the “Buy local” campaign. They support young people in building their careers through volunteering.

The next was the „**Erdélyi Lovaskaszkadőr Egyesület**” (Transylvanian Horse Scout Association)

The Association was founded in 2016 with 5 members. In the beginning, the lack of professional equipment and the establishment of partnerships caused difficulties.

Since then, the association has expanded its activities widely:

- They hold riding courses with qualified instructors, trained horses for beginners and advanced riders, without age limit.
- The Lemhény-Rét Riding Camp is organised every year. The six-day, full-service camp takes place in a magical forest setting, where, in addition to theoretical and practical riding lessons, there are riding and veterinary lectures, “Horse Crafts” demonstrations and creative activities.
- Horse stunt demonstrations are held with 9 horses and 25 participants from all over Transylvania. They have already had more than 100 performances.
- In equestrian theatre performances, they present historical theatre plays with unique sets and choreography.
- They organise 1-7 day horse riding tours with a qualified guide in the most beautiful landscapes of Transylvania.
- Every year they organise the Horse Riding Days of the Háromszék. During the two-day event, nearly 10 horse races and the same number of cultural and traditional events await the visitors.

**Next was Motorcycle Association (Free Frog’s Riders)**

The central event of the association is the International Motorcycle Meeting, which has been held since 1999 and is being organised for the 22nd time this year. At these motorcycle meetings, around 1200 portions of bean goulash are distributed to the participants, free of charge for everyone. One of their traditional events is the carnival, open to all ages. This is a good opportunity to involve younger age groups in the life of the association and have fun together. Young motorcycle stuntmen are given the opportunity to perform in Târgu Mureş and other municipalities. The president of the association, “Mr Frog”, has been the town's Santa Claus for more than 20 years.

As the closing of the online event there was last 2 NGO’S:

First was the **KreaKids Studio**.

The KreaKids Studio is a design workshop, which was dreamed up by interior designer Sándor Erőss and fashion designer and educator Réka Babás-Máthé in the autumn of 2011. The dream became a reality and since then, KreaKids Studio in Handdivásárhely has given nearly 1000 children the opportunity to create. Hundreds of events, camps, professional excursions abroad and at home, university visits are organised for professional adults who show young people the way and the direction. The studio is a family and playful education for children and young people aged 4-18 years old, with everything from design and drawing to fashion design and DIY. The learning process is based on collaboration, experiential and experiential learning. There is a strong emphasis on individual workflow- everyone working at their own pace, but teamwork is also part of the "creations". In addition to arts and crafts, visual arts and visual education, they aim to build community.

The last presenter was the „KÖSZ” association

The **Trei Scaune Secondary School Students' Association** was founded in 2023 with 22 founding members from 5 vocational schools. It is an active student organisation whose main objective is to bring together and organise the community life of secondary school students. Its most important event is the Student Days, a three-day programme with over 200 participants. They regularly organise fundraising campaigns. They have a very active online presence, regularly posting events and videos on Facebook, tik-tok and instagram.

The presentations were available online and all four partners offered the possibility to attend in person for those who could not join the event online.

After the presentations, the speakers answered questions from participants. They then evaluated the presentations.

Pictures of the presentations with the audience gathered at the venue in Gyöngyös
